

**ACCESS Health**  
**Round Table Discussion**  
January 23<sup>rd</sup>, 2009

**A. INFORMATION SHARING AND COMMUNICATION**

- 1. What would be the most efficient mechanism for sharing relevant information for improved health care delivery?** (information regarding e.g. process innovations, business models, HR solutions, funding sources)
  - a. Communication through e.g. newsletters, regular meetings, publications?
  - b. Would organizations benefit from and would be willing to engage in exchange programs to foster dialog and practice information sharing?
  - c. Other sources of information exchange? Please provide examples of 1) existing sources and 2) ideal, non-existing, examples.
- 2. What are the main challenges to effectively communicate innovations and access information? How to over come these?**
- 3. What is needed to facilitate the sharing of information? What support would your organization need to better communicate innovations?** (e.g. what kind of documentations, validations and introduction to international partners)

**C. IMPLEMENTATION**

- 1. How can organizations be supported to more effectively implement solutions?**
- 2. A successful health care delivery model for high-quality, affordable and efficient health care is scaling in one region and does not have the capacity to provide the services in another location.**
  - How can this be facilitated?
  - Given your suggestions, what would the challenges be and how could they be addressed?
- 3. Process innovations (e.g. how to improve procurement process or a solution for patient scheduling)**
  - How/where do organizations find out about innovations?
  - What support do they need for implementation?
- 4. Capacity building**
  - What managerial skills are currently lacking in the health care sector. How can these be improved?

- How can organizations get engaged in capacity building outside their own organization?

#### **D. ACCESS TO HEALTH CARE CONFERENCE**

##### **The Access to Health Care conference at ISB, January 2010**

The objective of the Conference is to create a platform where Best Practices are turned into Next Practices to strengthen health care systems.

##### **On the Agenda to discuss:**

- Examples of scaled and replicated health care models
- Methods for implementation of best practices
- Joint efforts to facilitate implementation of solutions in new locations
- Health financing – models for sustainability, access to funding

- 1. Further topics to be discussed?**
- 2. Who should participate?**
